

Achieve productivity with an easy-to-use, cost-effective semi-automated adhesive dispenser.

Keep production lines moving by efficiently applying Glue Dots® instant-bonding adhesive patterns to any size or shaped item with the versatile Auto Dot™ Pro semi-automated adhesive dispenser.

Effortlessly use the Auto Dot Pro on any project with optional positioning of the unit for upright or horizontal adhesive pattern application. Other important features include:

- Fast reload and minimal downtimes
- Flexible with the ability to specify pattern count advancement
- Extensive adhesive pattern compatibility
- Benchtop dispenser and easily moved from project to project
- Internal auto-rewind for used liner
- Intermittent or continuous pattern advancement
- Stainless steel and aluminum design for easy wipe-down
- Optional foot pedal available for adhesive pattern advancement

The AutoDot Pro is equipped to allow for application of single or multiple adhesive patterns, thanks to the rotary switch located on the front of the dispenser.

Made for operations where high adhesive application rates are paramount for productivity, the continuous feed option automatically advances the adhesive liner, presenting up to five adhesive patterns at the rate specified with the speed adjustment knob.

When set to the intermittent mode, a photo eye sensor triggers once the adhesive pattern(s) on the nose plate have been applied to a substrate. It will automatically advance the liner, presenting the next set of adhesive pattern(s) specified by the operator.

Ideal for packaging, manufacturing and assembly, and pharmaceutical outsert attachment, the versatile Auto Dot Pro can accommodate a variety of projects in a wide array of industries. The Auto Dot™ Pro, when combined with Glue Dots Brand Adhesives, provides an efficient alternative to double-sided tapes, liquid glues and hot melts.

## Auto Dot™ Pro Applications

### Packaging

Secure product's orientation prior to packaging or shrink wrapping

### Manufacturing & Assembly

Affix pieces or hold components in place before assembly

### Pharmaceutical

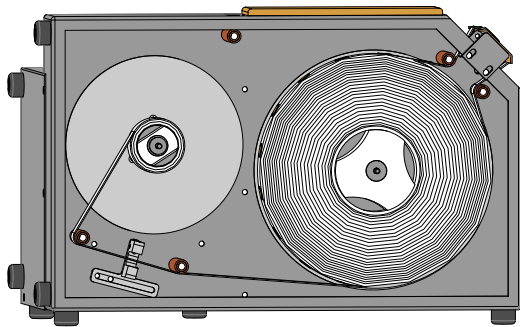

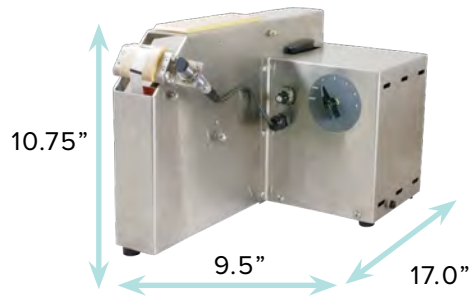

Secure medical product information sheets or outserts

### Dispenser Specifications

<b>Weight:</b>	19.0lb
<b>Height:</b>	10.75"
<b>Length:</b>	17.0"
<b>Width:</b>	9.5"
<b>Materials:</b>	Stainless Steel, Aluminum
<b>Power:</b>	100/240 VAC 50-60 Hz

By following the instructions, located in the **Auto Dot™ Pro Operations Manual** (included with every Auto Dot Pro purchase), any user can quickly and efficiently load/reload the semi-automated dispenser with ease.

### Auto Dot™ Pro Compatible Standard Glue Dots Adhesives

Item #	Diam.	Tack Level	Bond	Profile
ADP21-404	1/2"	Medium	Removable	Low
ADP31-404	1/2"	High	Semi-Permanent	Low
ADP41-404	1/2"	Super High	Permanent	Low

The Auto Dot™ Pro semi-automated adhesive dispenser has three standard adhesive options, but is also compatible with custom adhesives, which are available upon request.

The right adhesive solution for your application.

Established in 1997, Glue Dots International (GDI) forever altered the adhesive industry when it launched the unprecedented pressure-sensitive, preformed adhesives product line globally known today as Glue Dots®.

With the most pressure-sensitive adhesive pattern experience in the industry, GDI can help you find the right adhesive and application equipment solution to meet your specific needs.

Our experienced account managers and engineers are available to provide adhesive recommendations based upon your application. Sample adhesives may be supplied for testing.
